One year, strictly in advance, : 3 00\$
Six months, : : : 1 50
Three months, : : : 1 00
Advertising rates on application.

Entered at the Kingman Postoffice as Second Class Mail.

W. C. Bishop took Newton Evans out to the Stockton Hill country Thursday last to look at mining property.

H. L. McCann, general manager of the Rainbow Mountain mining company, visited in Kingman a few days this week.

Blaine Crozier was up from the McCracken section, where he has a large cattle range, and looked after business matters, last Thursday.

C. B. Johnson has opened a handsome jewelry store on Fourth street, in the Luthy block. He is an excellent workman and should be well patronized.

Jesse Thompson, son of the late Price Thompson, died in Phenix last Tuesday of heart failure. The young man lived in Kingman a number of years ago with his parents.

Harry LeClair has equipped his well on the Smith tract with a windmill and is getting the ground in shape to plant feed for a chicken ranch. The place will be ideal for that purpose.

Tom Gallagher and wife and Al Huber and wife, who have been taking gapings at the Grand Canyon and other scenes the past two weeks, passed through here this morning on their way to their homes in Needles.

George Claggett came up from Yucca yesterday with Sam Settle, who is reported to be very ill. Mr. Settle is one of the old timers of Arizona and has many friends in this county. He was a confederate soldier during the civil war.

The families of C. R. and Frank Van Marter are in Wallapai mountains, stopping at the old Dean mine. The place is well up in the mountains and one of the good camping places accessible from Kingman.

Judge Krook has been holding court in Yavapai county this week, having an important mining case under trial. It is understood that the case will be terminated today and that court will open in Kingman Monday next.

A. Sanders, who is said to be an excellent tailor, has opened a tailoring and cleaning shop opposite the public school house. Kingman needs a good tailor and the people should see that Mr. Sanders receives their full patronage.

Miss Minnie Sawyer returned from Prescott last Sunday evening and departed Tuesday evening for California, where she will visit a month with friends and relatives. Mrs. Ross H. Blakely went with her and will visit with her parents at San Jose until the first of September.

Mr. and Mrs. O. D. M. Gaddis and the children departed yesterday morning to the Sandy, where they will camp for a few days while getting their cattle ranch in shape. Mr. Gaddis and Homer are going into the cattle business on a good scale and intend to build corrals and necessary buildings for the use of the ranch.

C. F. Osborn, of Salt Lake, who was awarded the contract for the erection of the Mohave county courthouse, has not arrived from that city. It was expected that he would be here yesterday, but he apparently has been delayed. Work is to be commenced on the removal of the old courthouse building by the 21st of this month, and excavating for the new building will be commenced as soon thereafter as possible.

A man wearing an overcoat and having a growth of beard and hair that would become the wild man of Borneo, was brought in from Chloride yesterday. He had made his appearance in the Lead City several days ago and appeared to be almost starved. He will be held in jail here until his sanity is inquired into. The man claims to be an iron finisher and has been in the Williams country. He stated that he walked and rode an automobile from Williams.

County Road Overseer Russell is fixing up the bad spots in the road near Wallapai, from which locality much complaint has been made by automobilists.

J. W. Cummings has purchased the big teams of Frank Russell and will take over the contract of hauling machinery and supplies to the Frisco mines, at Union Pass.

M. H. Force is getting his building on Front street well toward completion. A new front is being put in and when completed it will be one of the best appearing places on the street.

Miss Dondena Templeman is visiting at the home of Mr. and Mrs. George Davis, at Freeze Wash. Miss Templeman was raised in Kingman and has a host of friends here. Her home is in Phenix.

Mrs. Mattie Blakely and son Ernest came in from Gold Road Thursday last and departed to Los Angeles, where the boy will be placed under the treatment of a specialist to try to effect a cure for an injured knee.

O. T. Brinton came in from Gold Road the first of the week with Mrs. Brinton and the children and sent them to Montana, where they will remain during the hot months. He returned to Gold Road Thursday last.

Anson H. Smith is equipping his well in the Smith tract with a big pumping plant with the intention of supplying water to a small orchard and garden. The well is supposed to have enough flow to furnish at least 100,000 gallons of water daily.

Hon. Lamar Cobb and Frank Luke, of Phenix were in Kingman the past week or ten days. Mr. Cobb is State Engineer and Mr. Luke is supervisor of Maricopa county. The gentlemen have been looking over the country through the five northern counties.

A democratic paper is soon to make its appearance at Flagstaff, the estimates for the plant having already been made. The Sun is now the only paper issued in the Mountain city, but it appears to fill the bill. Two poor papers will never fill the place of one good journal.

Joe Rosenberg reports having run across M. W. Musgrove, Charles J. Hutchison, O. B. Stanton and C. B. VanDeman, formerly of Kingman, in New York City last week. The gentlemen appeared to be prosperous and doing things to enlist capital in Mohave county mining enterprises.

As an indication of the amount of water that can be pumped from a well in Kingman the railroad company is pumping as high as 240,000 gallons daily from its bored well near the depot. The company has two wells at this point for the purpose of furnishing water in case of emergency to all trains east and west as well as the company's property.

Ben Penberthy, at one time a miner in this county, was arrested yesterday on a charge of selling whiskey to Indians. Penberthy was injured in a mine cave some years ago and since that time has been a cripple. Although able to do some work he prefers to bum his way and has added selling whiskey to Indians to his other bad habits. He will have a hearing before the Commissioner this afternoon.

At a depth of ninety feet the well of George and Carrow has been completed, in the Freeze Wash section. The driller reports that the well shows a clear flow of water, a strong current being perceptible. The gentlemen are to use the water for cattle and may put in a field of alfalfa for feeding purposes in that locality. With the finding of water at such shallow depth it is probable that more wells will follow and that fruit orchards will be planted along the north end of the Wallapais.

The Santa Fe is now getting matters shaped up to begin an active double-tracking campaign through New Mexico and Arizona. More than twenty millions of dollars is now available for the work, which will be rushed to completion. The double-tracking through this section will be long drawn out, the greater part being heavy rock work. Thousands of men are to be employed and every class of labor saving machinery will be used. It is the general belief that work will be commenced at this point not later than the first of September.

H. H. Watkins has gone to San Francisco to attend to business matters.

J. H. Rosenberg, who represented Kingman lodge No. 468, B. P. O. Elks, returned from the grand lodge meeting at Rochester Wednesday evening last. He reports that he had a great time during his absence from Kingman.

The board of equalization has been in session the greater part of the week getting matters in shape to make up the budget for the year. It is believed that the assessed value will be far ahead of the amount originally figured on and that the levy will be light.

C. A. Carpenter is putting in a big pumping plant at Hackberry for Jesse Wallace. Mr. Wallace intends putting in an orchard at that place and will have to pump water about eighty feet. The orchards in that section produce the best apples raised in Arizona and a few acres in full bearing would be a big investment.

Six children have been born in Kingman since the first of the month, four males and two females. The birth rate of males is supposed to be an indication of war, but this will possibly come in the maturer years of the young Americans and not right away. Bryan will send a few cases of bromo-seltzer and grape juice to Mexico to settle the nerves of the contending forces and avert the calamity indicated to the seers by the male birth rate.

The board of supervisors of this county, as well as all the other supervisor boards in Arizona, has been called to meet at Phenix on the 28th of July and bring their original assessment rolls with them for the purpose of equalizing the taxes of all the counties. The clerks and assessors are also to be present. This county has been assessed quite high and it is to be hoped that the other counties will be treated likewise.

The flood in the Colorado river has passed and the stream is now at almost normal stage. With the great snows in the northern mountains it was the belief that the lower Colorado would be flooded out, but the continued cold weather eased the flow and prevented disaster. It will now be but a short time until automobiles can get to the river bank and be ferried across to Needles, cutting out much delay and expense in the shipment of machines by rail.

Deputy U. S. Marshall B. Anderson, Tuesday morning last arrested J. F. Johnson at Frisco camp and brought him to Kingman on a charge of sending obscene matter through the mails. Johnson had mailed a letter from Parker to a young woman at Tulsa, Okla., containing indecent proposals. This letter fell into hands other than that intended and the matter was turned over to the postoffice department. Johnson was taken before U. S. Commissioner Smith, who held him to the U. S. grand jury in the sum of \$500. Johnson is a boy aged about 20 years, and comes of good parents.

The Mohave County Good Roads Association held a meeting at the courthouse last Monday evening for the purpose of getting an expression of opinion regarding the sale of the county road bonds. The opinion prevailed that the use of this money would be worth more to the county at this time than a great deal more would be in the future. The board of supervisors was petitioned to immediately call for bids for the purchase of these bonds, and every business man agreed to solicit bids on the bonds from any and all bond buyers they knew. The meeting was quite generally attended.

Promotes Health of Liver

We believe you will be surprised to note how quickly Rexall Liver Salts will tone you up and make you feel better—more energetic, more completely your own normal self. Containing ingredients long recognized by successful physicians as valuable in the treatment of liver disorders, and the various other bodily ailments arising from them, Rexall Liver Salts not only assist the liver in removing poisonous waste matters from the body—which if not removed, are pretty sure to clog up and derange other organs, and perhaps lead to a general nervous break-down—but assist materially in promoting the general health. It is a pleasant relief from the old-fashioned salts, both in its more agreeable taste and in its exceedingly gentle, yet effective laxative action. Rexall Liver Salts are guaranteed by us to satisfy or money back. Price, 25 and 50 cents. Sold in this community only at our store. * * *

J. E. White, of the Yucca Mining company, was in Kingman a few days ago on business. He expects to soon begin operations on the mines near Cedar.

John H. Ware and wife and Dr. A. L. Tilton and wife departed yesterday evening to Los Angeles, where they will enjoy the cool ocean breezes for a few weeks.

Steve Hinkle, one of the oldest miners of this county, came in from Mineral Park a few days ago and departed to the Copper Giant mine, where he will handle the hoisting plant.

Emery Blevins, who was so badly injured by the explosion of giant powder ten days ago, is reported to be getting along nicely. While he has lost his right hand near the wrist he will fully recover the use of his leg.

If a substitute is offered you for Foley Kidney Pills, it means a cheaper medicine is pressed upon you for the dealer's profit, not for yours. Foley Kidney Pills may cost the dealer more than a cheap substitute, but they give better results than any other kidney and bladder medicine. A. J. Walsh, Sheffield, Calif., writes: "Rush them to me. I am badly done up with rheumatism, and Foley Kidney Pills are the only thing that will cure me." H. H. Watkins, Druggist.

A Big Tax Roll.

The board of supervisors this week has been wrestling with the taxroll for the year 1913 and have practically completed the work. The past few days work on the budget has been under way and will be completed today. With the roll of taxable values about 14,000,000\$ the board will have something to draw taxes from that will make many internal improvements possible next year. This is quite an increase over the roll of last year, which was about 5,500,000\$.

A Mexican slashed a countryman at Crozier last week and then took to the woods, since when he has made himself invisible to the officers. The injured man had his wounds dressed in Kingman and sent to the railroad general hospital in Los Angeles, where it is reported, he has since died. The cutting took place over the wife of the knife wielder.

This week the Sheriff's office arrested S. D. Myers at Chloresde, on a charge of sending threatening letters through the mails and threatening to injure a number of people. When arrested Myers was armed with a rifle and an automatic six shooter. He was brought to Kingman and lodged in jail, and his sanity will be inquired into. Should he be adjudged sane he will be tried on several charges.

Perfect Fitting Pumps for Women

Most important in the selection of pumps is the question of fit. A pump that gaps at the sides is never correct; a pump that binds at toe or heel is never comfortable.

Utz & Dunn Co. pumps for women are made on the most approved lines. Will not gap or bind and positively will not slip at the heel. This is a feature which will appeal to all wearers of pumps. We have them in all leathers and in fabrics.

\$3.00, \$3.50 and \$4.00
